**Proof** A Smarter, Faster, Safer Way to Control Bed Bugs

PROOF<sup>TM</sup> is the only EPA-registered product that kills 100% of bed bugs and eggs on contact and keeps killing both for weeks when used as directed. This plant-based spray is even effective against pesticide-resistant bed bugs and eggs.

PROOF's patent-pending technology unleashes the botanical power of neem to create a zone of protection at home and while traveling.

PROOF is easy to use. Spray your suitcases and belongings, in and around beds and living areas, and use it on the go. Its sweet botanical smell lets you know it's working.

**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**  
Caution: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

**First Aid - If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice. - If swallowed Call a poison control center or doctor for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Have the product container or label with you when calling a poison control center, doctor, or going for treatment. - For emergency information concerning this product, call the National Pesticides Information Center (NPIC) at 1-800-858-7378 seven days a week, 7:30 am to 3:30 pm Pacific Time (NPIC Web site: [www.npic.orst.edu](http://www.npic.orst.edu)).

**PHYSICAL AND CHEMICAL HAZARDS - Flammable.** Keep away from heat and open flame. Do not spray around open flame or heat sources or in electrical sockets. Any goods or equipment that use power must be unplugged before being treated. Check to ensure any electrical equipment is completely dry before reconnecting to a power source.

**STORAGE AND DISPOSAL -** Store in a cool dry place out of reach of children and pets and away from direct sunlight, windows, flames and other sources of heat or ignition. Keep containers tightly closed and in original containers when not in use. Do not store exposed to ultraviolet light (sunlight) or moisture. Non-refillable container. Do not reuse or refill this container. If empty, place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**DIRECTIONS FOR USE** - It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label. Use strictly in accordance with precautionary statements and directions, and with applicable state and Federal regulations. Use PROOF to control bed bugs. PROOF works to prevent bed bug infestations, kills bed bugs for up to 2 weeks, and kills bed bug eggs for up to 3 weeks. PROOF is a ready to use spray for indoor use. Do not dilute. Shake well prior to use.

**For Direct Treatment:** Apply PROOF to kill bed bugs or eggs by spraying directly.

**For Indirect Residual Treatment:** Apply PROOF to surfaces and fabrics to kill or prevent bed bug infestations. Spray fabrics or surfaces until moist. Wipe off excess product or drips. Allow all treated areas to dry completely before use. For optimal performance, close doors and windows and turn off air circulation (e.g. heaters, air conditioners). Leave treated areas undisturbed for at least 4 hours after treatment. After 4 hours, return to normal ventilation and allow reentry.

**For Travel Use:** Spray PROOF both inside and outside of your travel bags. Bring PROOF on your trip to treat areas where you will be staying. Spray the sides and top of your mattress and the areas around your bed for extra protection. Leave the room with the fans or heaters off for at least four hour for maximum effectiveness. Use PROOF on a variety of indoor surfaces, fabrics and materials, and anywhere bed bugs harbor or their eggs may be found. Spray all surfaces, especially tufts, folds, edges, cracks and crevices. Make small inconspicuous spot treatments to test all surfaces and fabrics for colorfastness, discoloration or damage before use.

**Application Rates and Treatment Schedule:** Use approximately one ounce PROOF per 1.5 to 6 sq.ft. of surface area depending on material treated. For bed bug adults, nymphs and eggs, re-apply every 1 to 2 weeks or as needed. For ongoing control of bed bug eggs only, re-apply every 2 to 3 weeks or as needed.

**NOTICE:** Research and retesting have determined that the "Directions for Use" are appropriate for the proper use of this product under expected conditions. To the extent consistent with applicable law, user assumes responsibility for the lack of performance or safety if not used as directed.
