66 x 218 DS Container LITHO CAN

Effective up to 7 weeks
against Ants, Cockroaches and
other listed crawling insects.

Effective for 3 weeks
against Flies and Mosquitoes.

For use in homes and non-food areas
of kennels, commercial buildings, warehouses,
theatres, office buildings, schools, motels, hotels,
restaurants and food processing facilities.

ACTIVE INGREDIENTS:

(RS)-2-(diethylamino)-3-(2-cyanoethyl) cyclopent-2-enyl (IRS)-6a, trans-chloranilbenzole	0.030%
Ethionazole	0.050%
*N-Octyl bicycloheptane dicarbodiimide	0.239%
**OTHER INGREDIENTS:	99.881%
Total	100.000%

*MNH® 264, Insecticide Synergist
**Contains petroleum distillates
EPA Reg. No. 498-203 EPA Est. No. 498-R-1

NET WT/PESO NETO 15 oz (425 g)

KEEP OUT OF REACH OF CHILDREN MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed, absorbed through skin or inhaled. Avoid contact with skin, eyes or clothing. Avoid breathing vapors or spray mist. Causes moderate eye irritation. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling. Wear long sleeved shirt, long pants, shoes, socks and chemical resistant gloves (Danner formula 6 or Viton). Remove pets and birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surfaces until spray has dried.

FIRST AID

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN: Contains petroleum distillates - vomiting may cause aspiration pneumonia.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. For information regarding medical emergencies or pesticide incidents, call 800-255-3924.

USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
Users should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Apply this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

PHYSICAL OR CHEMICAL HAZARDS

FLAMMABLE: Keep away from heat, sparks and open flame. Do not use under or around gas stoves, water heaters, or other gas utilities (including home heating units) with open flames or pilot lights. Contents under pressure. DO NOT PUNCTURE OR INCINERATE CONTAINER. Exposure to temperatures above 130°F may cause hardening. Do not use this product in or on electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

PRODUCT INFORMATION

Use this spray as a spot or crack-and-crevice treatment to control cockroaches, fleas, silverfish, ticks, water bugs, and other insects listed below. Apply this product only as a crack and crevice treatment to localized areas where pests are found or may occur. Spray surfaces until wet. Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms but excluding areas where foods may be prepared or held.

In the home, cover all food handling surfaces and cover or remove all food and cooling elements, or wash thoroughly after treatment.
Non-food/feed areas are areas such as garbage rooms, lavatories, floor drains (to sewer entries and vestibules), offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after cleaning or bottling). Do not apply directly to sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur, except as directed by this label.
Avoid contamination of food and feedstuffs.

Do not water the treated area to the point of runoff. Do not make applications during rain. All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

- (1) Treatment to soil or vegetation around structures;
 - (2) Applications to lawns, turf, and other vegetation;
 - (3) Applications to building foundations, up to a maximum height of 3 feet.
- Other than applications to building foundations, all outdoor applications to impervious surfaces (such as sidewalks, driveways, patios, porches and structural surfaces such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.

FOR SPOT TREATMENT

TO KILL ANTS, BLACK WIDOW SPIDERS, CARPET BEETLES, COCKROACHES, CRACKETS, SCORPIONS, SILVERFISH, SOLENOBES AND SPIDERS: Spray areas where these insects are found or may hide, including dark corners of rooms and closets, cracks and crevices in walls, along baseboards and door and window frames (behind and beneath walls, slats, registers and cabinets, and around garbage cans, plumbing and other utility installations). Pests driven out of hiding places should be sprayed directly. For ants, spray ant trails and around doors and windows, and wherever else these pests may find entrance.
TO KILL BROWN DOG TICKS AND FLEAS: Thoroughly spray as a spot treatment in infested areas such as pet beds and nesting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames, and localized areas of floor and floor coverings where these pests may be present. Pets and bedding should be removed and replaced with clean, fresh bedding after treatment. DO NOT SPRAY PETS WITH THIS PRODUCT. Pets should be treated with a registered flea and tick control product prior to reentering treated areas.

FOR CRACK AND CREVICE TREATMENT

TO KILL ANTS, BLACK WIDOW SPIDERS, BROWN DOG TICKS, CARPET BEETLES, COCKROACHES, CRACKETS, FLEAS, SCORPIONS, SILVERFISH, SOLENOBES AND SPIDERS: Apply spray in small amounts directly into cracks and crevices. Equipment capable of delivering a jet stream should be used in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where these insects hide.
Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food handling surfaces.

FLEAS AND MOSQUITOES: Use only outdoors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized nesting areas (such as under eaves) or porches, patios and garages where these insects may congregate. Fleas and mosquitoes coming to rest on treated surfaces will be killed. Repeat treatment every three weeks.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage and disposal.
PESTICIDE STORAGE: Store in a cool, dry area. Always store pesticides in the original container. Store away from heat and out of food.
PESTICIDE DISPOSAL AND CONTAINER HANDLING:
DO NOT PUNCTURE OR INCINERATE.
If empty: Place in trash or other for recycling if available.
If partly filled: Call your local solid waste agency for disposal instructions.

**KEEP OUT OF REACH OF CHILDREN
MANTÉNGASE FUERA DEL ALCANCE DE LOS NIÑOS**
