

DIRECTIONS**ALL NATURAL SOLUTION****SHAKE WELL WHILE USING.**

Spray directly onto insects and infested areas until thoroughly covered. Periodically shake mixture.

Complete coverage of all plant is necessary for controlling mites. Make sure to spray under the leaves where spider mites hide and lay their eggs.

To reduce the chance of damage to leaves, do not use under direct sunlight or grow lamps.

May be used on food and feed crops.

Allow Instant Mite Killer 15 minutes to fully attack mites and eggs.

Mites are tough! To keep mites away for good you must use Instant Mite Killer regularly. Spray plants with Instant Mite Killer every (4) days.

Indoors: Spray while main lights are off. Let completely air dry before turning the lights back on.

Outdoors: Cover from wind or wait for a calm day to apply. Do not use during intense sunlight.

Use from start to harvest.**Active Ingredients: .19%**

Soybean oil19%

TOTAL: 100%

Inert Ingredients: 99.81%

Water, Isopropyl Alcohol,
Magnesium Sulfate, Citric Acid,
Lecithin, Polyglyceryl Oleate

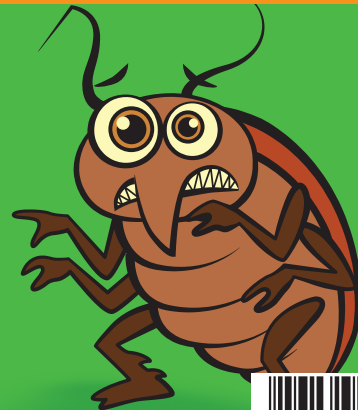

Caution: Keep out of reach of children and animals. Harmful if swallowed. Avoid contact with eyes, clothing and skin. Use gloves and eye protection. If on skin, wash with plenty of soap and water. If in eyes, rinse for at least 15 minutes.

Storage: Store in original container in a cool, dry place not accessible by children or animals. Do not reuse empty containers. Recycle if available or discard in trash.
