DIRECTIONS

Shake well and mix **Instant Mite Killer** with warm water in a spray bottle or atomizer. See chart below for mixing ratios.

Spray directly onto insects and infected areas until thoroughly covered. Periodically shake mixture.

Complete coverage of all plant is necessary for controlling mites. Spray under leaves where spider mites hide and lay their eggs.

To keep mites and other pests away, use Instant Mite Killer every (4) days to maintain a healthy and productive garden.

May be used on food and feed crops.

MIX RATIO per gallon of **WATER**

- 1. First Application 2 oz / gallon
- 2. Second Application 1 oz / gallon
- 3. Maintenance 1 oz / gallon

SPRAY PLANTS ONCE EVERY (4) DAYS FOR A HEALTHY GARDEN
