DIRECTIONS FOR USE

READ ENTIRE LABEL — USE IN ACCORDANCE WITH LABEL INSTRUCTIONS

PRECAUTIONS AND NOTICES:

-Applicator should wash hands before eating, drinking, chewing gum, rubbing eyes, using tobacco, or using the toilet.
-Product contains botanical oils that are inherently fragrant. Most people will find the mild scent of this product to be pleasant. However, prolonged exposure to the scent may be objectionable to some individuals. Remove product and ventilate area to diminish scent.
-Do not place product in direct contact with electrical wiring.
-Product should not be applied directly to surface water.

GENERAL PESTS INCLUDE BUT ARE NOT LIMITED TO:

Ants, Cockroaches, Small flies (e.g. Drain flies, Fruit flies, Gnats, and Phorid flies) and Mosquitoes.

HOW IT WORKS: EcoVia IB Insect Bloks give off botanical oil vapors that repel insects from an area and can kill insects in small enclosed spaces. The vapor release is enhanced when the Bloks slowly dissolve in water, such as when placed in beverage fountain drip trays or drains.

HOW TO USE:

1) To repel and kill small flies or other insects in and around beverage fountain drip trays, drains and similar areas, place one or more Bloks in the tray or drain in such a manner such that moisture contacts the Blok, but so as not to block drainage. Replace Bloks once dissolved. Dissolution rate will vary depending upon use level of the drain.
2) To help keep ants and other crawling and flying insects out of electrical boxes, sanitary boxes, trash cans and other smaller enclosed spaces, place one or more dry Bloks inside the enclosed space. Do not place Bloks in direct contact with electrical wiring. Replace Bloks once scent is diminished. The duration will depend upon the size of the void, how enclosed it is and the ambient temperature.
