**FLYING INSECT
KILLER**

Now there is an insecticide that is **safe to use around children and pets**. EcoSMART[®] Flying Insect Killer is made from a proprietary blend of essential plant oils. It kills bugs fast and repels crawling insects without any synthetic toxins or harmful residue. It's safe, it's effective. It's smart – Naturally.

To learn more about EcoSMART[®] and its entire line of pesticide products, please visit our web site at www.ecosmart.com.

FRESH NATURAL SCENT FROM PLANT OILS.

DIRECTIONS FOR USE:

SHAKE WELL BEFORE USING. READ ENTIRE LABEL AND USE ACCORDINGLY.

FLYING INSECT TREATMENT: Kills flies, gnats, mosquitoes and moths by contact. Hold container upright and aim nozzle away from yourself. Press button firmly to spray. Direct spray at flying insects, exposing as many insects as possible. Spray in short 2-3 second bursts. Also can be used to spray window screens to repel flying insects from the area. For larger stinging flying insects like wasps and yellow jackets, use EcoSMART[®]'s Wasp & Hornet Killer aerosol.

NOTE: This product contains plant oils which are inherently fragrant. For people who are fragrance sensitive, test a small application before using over a larger area. When used indoors, wipe away excess product. As with most household products, this insecticide will stain any surface that water alone will stain. This product is not recommended for use on vinyl siding, or window or door casements made of vinyl moulding. Be careful when spraying around plants as some plants with tender tissue and/or tender new growth may be sensitive to essential oils.

PRECAUTIONARY STATEMENTS: This product is safe for use around children and pets when used as directed. Caution – We recommend good safety practices when using any pesticide, such as avoiding contact with eyes and skin and keeping out of the reach of children and pets. If product gets in eyes, flush with water for at least 15 minutes. If on skin, wash with soap and water. If irritation persists, contact a physician.

PHYSICAL HAZARDS: Contents under pressure. Keep away from heat, sparks and open flames. Do not puncture or incinerate container. Exposure to temperatures above 130° Fahrenheit may cause container to burst.

STORAGE & DISPOSAL: Store in a cool, dry area away from heat or open flame. When container is empty, recycle if available. Do not puncture or incinerate.

LIMITATION OF LIABILITY: To the extent consistent with applicable law, Kittrich Corporation makes no warranties of merchantability or of fitness for a particular purpose, nor any other express or implied warranty except as stated above. Buyer assumes all responsibility for safety and use not in accordance with label, directions and precautionary statements. Always test this product in an inconspicuous area and let dry for at least 48 hours before applying to any finished or colored surface.

Kittrich Corporation represents that this product is a Minimum-Risk pest control product, and qualifies for exemption from EPA registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).
