For outdoor use around the home only.

Active Ingredient.....	2.5%
Permethrin.....	2.5%
Other Ingredients.....	97.5%
TOTAL.....	100.0%

*Excluding ticks

KEEP OUT OF REACH OF CHILDREN
CAUTION See back booklet for additional
precautionary statements.

Net Contents 32 fl oz (1 qt / 946 mL)

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in cool, dry area away from heat or open flame.

Pesticide Disposal and Container Handling: If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

First Aid

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. You may also contact 1-800-332-5553 for emergency medical treatment information.

Environmental Hazards

This pesticide is extremely toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid runoff to water bodies or drainage systems. This pesticide is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Precautions and Restrictions

 **Do not allow adults, children or pets to enter the treated area until sprays have dried. Do not apply this product directly to pets.**

- Do not water the treated area to the point of runoff.
- Do not make applications during rain.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.
- Not for use in outdoor residential misting systems.
- All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
 1. Treatment to soil or vegetation around structures
 2. Applications to lawns, turf and other vegetation
 3. Applications to building foundations, up to a maximum height of 3 ft

Other than applications to building foundations, all outdoor applications to impervious surfaces, such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and eaves), are limited to spot and crack-and-crevice applications only.

HOSE-END SPRAYER INSTRUCTIONS

1. *Shake container well before using.*
2. Connect a garden hose to the ready-spray nozzle. Make sure the dial on the nozzle is in the "OFF" position with the safety tab in the valve notch.
3. Turn on water at faucet. Extend hose to the farthest area of lawn to be treated and work back toward the faucet so you don't come in contact with the treated area.

4. To BEGIN spraying, point nozzle toward lawn or plants to be treated and 1.) bend the safety tab (located at right of dial) back and hold, and 2.) using your other hand, QUICKLY turn the dial clockwise until it stops and tab engages into notch. Water will automatically mix with the product at a dilution rate of 100:1.
5. Spray until wet to control insects listed. Walk at a steady pace while spraying using an even sweeping motion, slightly overlapping treated areas. One quart will treat up to 5,000 sq ft. Calculate square feet by multiplying length by width. Refer to sight gauge to guide coverage (example: when bottle is half empty, you should have covered half the area).
6. To STOP spraying, QUICKLY turn the dial in the opposite direction of "ON" (counterclockwise) until it stops and the safety tab engages into the notch. Turn water off at faucet. To relieve pressure before removing nozzle from hose, bend the safety tab back and turn dial "ON" until water stops spraying.
7. To STORE unused product, make sure the dial is in the "OFF" position with the safety tab in the valve notch. Place in a cool area away from heat, sunlight or open flame.

HOME LAWNS

Eliminator® Ant, Flea & Tick Killer Concentrate₂ will control ants, armyworms, crickets, cutworms, chinch bugs, fleas, grasshoppers, mole crickets, mosquitoes, non-poisonous spiders, ticks and sod webworms in bentgrass, Bermudagrass, bluegrass, fescue, Irish moss, merion and St. Augustine lawns.

TREES, SHRUBS AND FLOWERS

Eliminator Ant, Flea & Tick Killer Concentrate₂ will control aphids, bagworms, budworms, citrus black flies, cicadas, elm leaf beetles, elm spanworms, fall cankerworms, inchworms, leafminers, leafrollers, mealybugs, needle scales, oakworms, pine beetles, pine moths, pine needleminers, spider mites, exposed thrips, fall webworms, tussock moths and whiteflies on ageratum, aster, Arizona cypress, azalea, begonia, birch, cherry, non-bearing citrus, coleus, common ninebark and snowberry, conifers, elm, English ivy, euonymus, exacum, weeping fig, fir, gladiolus, gold bells, honeysuckle, hypoestes, ivy, lilac, marigold, mock-orange, nannyberry, oak, orchid, palm, pansy, pea shrub, petunia, philodendron, pine, poinsettia, rhododendron, rose, snapdragon, taxus, tulip poplar and zinnia.

USE TIPS

- Ensure home lawns are no taller than 3 inches at time of application.
- Wet down lawns a few hours before applying.
- Make application to trees, flowers and shrubs when the temperature is between 50°F and 75°F.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in cool, dry area away from heat or open flame.

Pesticide Disposal and Container Handling: If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
