PRECAUTIONARY STATEMENTS

Hazards To Humans & Domestic Animals

Caution: Harmful if swallowed. Causes moderate eye irritation. Breathing spray mist may be harmful. Avoid contact with eyes or clothing. Breathing spray mist may be harmful. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

FIRST AID

IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED:

- Immediately call a poison control center or doctor.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give any liquid to the person.
- Do not give anything by mouth to an unconscious person.

HOT LINE NUMBER

Have the product container or label with you when calling a poison control center or doctor. In case of Medical emergencies or health and safety inquiries or in case of fire, leaking or damaged containers, information may be obtained by calling 1-888-740-8712.

NOTE TO PHYSICIAN

Contains petroleum distillate - vomiting may cause aspiration pneumonia.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. This product contains a highly flammable ingredient. It may cause a fire or explosion if not used properly.

Follow the "Directions for Use" on this label carefully.

**Highly Flammable Ingredient
Ingrediente Altamente Inflamable**

STOP. Read entire label before use.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions:

- Do not remain in treated area. Exit area immediately and do not re-enter or allow adults, children, or pets to enter until vapors, and/or mist have dispersed and the treated area has been thoroughly ventilated.
 - Do not apply this product in a way that will contact any person, pet, either directly or through drift.
 - Wait two (2) hours after application, then open windows, vents and doors for two hours. If an odor is still detected additional ventilation is required.
 - In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.
 - Keep people and pets out of the area during application. Do not apply to pets.
 - Remove birds and other pets before application. Cover any water inhabited by fish (such as aquariums and ornamental fish ponds) during treatment and turn aquarium systems off.
 - Clean and treat pet sleeping areas. Use an approved product registered for treating fleas and ticks on cats and/or dogs before allowing pets to re-enter area.
 - Do not use in greenhouses where plants are grown for food.
- One 2 ounce aerosol can treat up to 2,000 cubic feet of unobstructed area (a room 10' x 25' with an 8 foot ceiling). To calculate cubic feet, multiply height x width x length.

Does not control bed bugs.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Do not store near heat or open flame. Store in cool dry area away from children. **Pesticide Disposal and Container Handling:** Do Not Puncture or Incinerate! If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

For best results:

HOW TO USE:

To use this product correctly:
DO NOT use multiple canisters in a room.

DO NOT USE in small, enclosed spaces such as closets, cabinets or under counters or tables. Use of a fogger in an enclosed space may cause the product to explode, resulting in injury to people or damage to property. Do not use in a room 5 ft x 5 ft or smaller; instead, allow fog to enter from other rooms.

Step 1: BEFORE YOU FOG:

REMOVE or cover exposed foods, dishes, utensils, food processing equipment and surfaces. OPEN cabinets, cupboards, trunks, drawers, closets and doors in area to be treated to allow maximum kill in all areas where insects can hide and breed. Cover waxed wood floors, waxed furniture and other plastic surfaces near the fogger (newspaper may be used). CLOSE outside doors and windows to maximize killing power of fog. Cover or remove plants. SHUT OFF fans and air conditioners.

Turn off ALL ignition sources such as pilot lights (shut off gas valves), other open flames or running electrical appliances that cycle off and on (i.e., refrigerators, thermostats, etc.). Call your gas utility or management company if you need assistance.

Step 2: TO START FOGGING:

SHAKE WELL JUST BEFORE USING. Do not place on water stainable surface. Place a chair or table in the center of area to be fogged approximately 2 ft above the floor. Cover with several layers of newspaper or paper towels. Tilt can opening AWAY from face and depress tab firmly with thumb until it clicks in locked position. Set fogger on newspaper. Vacate the treated house, individual apartment unit or other structure immediately. Do not re-enter for 2 hours.

Step 3: AIRING OUT:

Before reoccupying the area, open all doors and windows and allow treated area to air out for two (2) hours.

- Kills
- COCKROACHES**
- FLEAS**
- BROWN DOG TICKS**
- MOSQUITOES**
- SPIDERS**
- (EXCEPT BROWN RECLUSE & BLACK WIDOW)
- ANTS**
- CARPENTER BEETLES**
- CENTIPEDES**
- CRICKETS**
- FLIES**
- GNATS**
- MILLIPEDES**
- MOLE CRICKETS**
- PALMETTO BUGS**
- PILLBUGS**
- SILVERFISH**
- WATERBUGS**
