RAT ZERO™ BAIT PELLETS

1.875"

Batch Code Area

How it Works: This product is an alternative to conventional pesticides for use in areas where use of pesticides may cause concern. It is recommended for use in conjunction with other rodent control products for full control. The bait pellets are designed to provide a poor food source for rodents to encourage them to seek alternative food sources outside the home.

Direction for Use: Before use, remove or properly seal all food and water sources and seal all possible entry points. Place bait pellets into shallow trays and alternate placement with other rodent control devices in the areas with signs of mouse and rat activity. Examples of activity can include oily rub marks, droppings, points of entry, or near potential feeding places. Place every 5 feet, alternating between trays and other rodent control devices.

For Rats: Fill trays with 50-70g or 1.75-2.5oz of the bait pellets (approx. 1/3 cup).

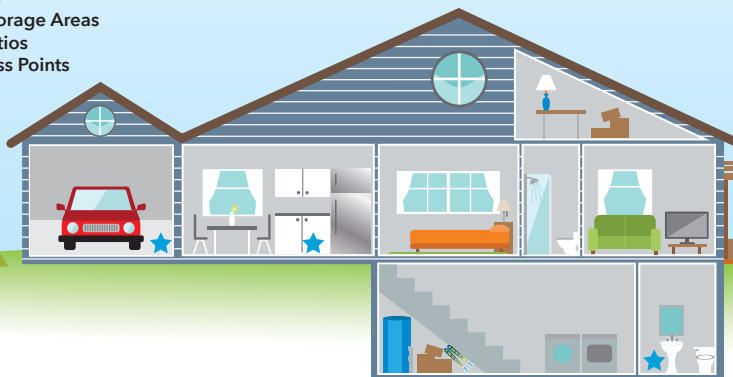

For Mice: Fill trays with 20-30g or 0.7-1oz of the bait pellets (approx. 1/4 cup).

Place trays every 5 feet where rodent activity occurs, focusing on locations with fresh droppings, signs of feeding, entry points, and around the interior perimeter of buildings. Monitor bait containers regularly, and replace any bait that has been exposed to water or eaten by rodent pests. Protect bait from other non-target animals. Do not use if you have pet rodents. Continue to refill bait containers until all signs of feeding have ceased for several days. For more effective rodent control, RAT Zero™ Brands recommends the use of additional rodent control products.

Wear gloves while handling any bait or containers that have come into contact with rodent pests as they can transmit disease. Wash hands thoroughly.

Suggested Locations for RAT Zero™ Bait Pellets:

- Under Sinks
- Pet Food Storage Areas
- Outdoor Patios
- Home Access Points
- Pantries

Storage and Disposal: Store in original container, in a cool, dry area. Keep container tightly closed. When container is empty, offer for recycling or dispose of according to local or municipal laws.

Guarantee: If for any reason you, the consumer, are not satisfied with this product, mail us your original proof of purchase to obtain a full refund of your purchase price. Questions or Comments? Call 1-866-779-5850.

Notice: This product has not been registered by the United States Environmental Protection Agency. RAT Zero™ Brands represents that this product qualifies for exemption from registration under the Federal Insecticide, Fungicide, and Rodenticide Act.
