RODENTS, SPIDERS, ROACHES, ANTS, SILVERFISH,
MOTHS, & OTHER LISTED PROBLEM PESTS

NET WEIGHT (2) 0.4 OZ POUCHES

ODORANT POUCHES

Eco Defense Pest Block combines essential oils with our patented encapsulated, amplifying, time-release technology, to create a solution for deterring pests that is highly-effective, long lasting, and safe when used as directed.

DIRECTIONS:

Place individual odorant pouches in any enclosed space up to 10 cubic feet (ex. 2' x 2' x 2.5') to deter flying/crawling insects (such as spiders, roaches, ants, silverfish and moths), rodents (such as rats, mice and squirrels) and snakes from intrusion or nesting. Use more pouches, evenly spaced, for larger enclosed areas. Perfect for closets in homes and offices, RVs, vehicles or anywhere these pests are nesting or entering your property. These weather-resistant pouches can be used indoors or outdoors to keep pests out of enclosed areas. Periodically check the pouches and replace when effectiveness diminishes; pouches typically last 12 months.

STORAGE & DISPOSAL:

Store in a cool, dry place inaccessible to children and pets. Do not open pouches. Discard in trash.
