*If you are not satisfied with this product's performance, we will gladly refund your original purchase price. *Moisture, pavement and field ants and other listed crawling insects. *Except in California

NOTICE: Research and testing have determined the "Directions for Use" are appropriate for the proper use of this product under expected conditions. To the extent consistent with applicable law, user assumes responsibility for the lack of performance or safety if not used as directed.

Precautionary Statements: Physical and Chemical Hazards Do not apply this product around electrical equipment due to the possibility of shock hazard. **Environmental Hazards** To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Have the product container or label with you when calling a poison control center, doctor, or going for treatment. For non-emergency information concerning this product, call the National Pesticides Information Center (NPIC) at 1-800-858-7378 (NPIC Web site: www.npic.orst.edu). For emergencies, call the poison control center 1-800-222-1222.

Storage and Disposal Store in a cool dry place out of reach of children and pets and away from direct sunlight, windows, flames and other sources of heat or ignitions. Keep containers tightly closed and in original containers when not in use. Do not store exposed to sunlight or moisture. Non-refillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label. Use strictly in accordance with precautionary statements and directions, and with applicable state and Federal regulations.

BugProof

DIRECTIONS FOR USE

Shake well prior to use. Spray listed pests directly, and treat surfaces until moist. Use one ounce of product per 1.5 to 6 sq.ft. of surface area depending on the pest or material treated. Re-apply as needed when listed pests reappear.

General Precaution

- Make small inconspicuous spot treatments to test all surfaces and fabrics for colorfastness, discoloration or damage before use.
- Do not apply directly to electrical outlets or to other potential electrocution hazards.
- Do not spray to the point of excessive dripping or run-off to avoid potential material damage.
- Allow treated areas to dry completely before use.
- Do not make outdoor applications during rain or if rain is expected within 4 hours.

To Kill Crickets, Firebrats, Silverfish, Millipedes, Centipedes, Sow Bugs, Aphids, Bottle Flies: Spray pests directly if they are visible at the rate of one ounce per 3~6 sq.ft. Treat surfaces where the pests are seen or known to hide or breed until the surface is moist.

To Kill Moisture, Pavement and Field Ants: Spray directly over and around the listed ants at the rate of one ounce per 1.5~3 sq.ft. to ensure continuous exposure to treatment. Spray around the perimeter of listed ant aggregations first before applying directly to live ants. Treat floors, walls, baseboards, under furniture, and other areas where listed ants are seen or may aggregate.

To Kill Spiders (Except black widow spiders): Spray directly over and around spiders for continuous exposure at the rate of one ounce per 1.5 sq.ft. to immobilize them. A direct spray immobilizes spiders within 5 minutes and kills them (except black widow spiders) within 4 hours. Black widow spiders may recover from immobility after approximately 8 hours.

To Kill Cockroaches: Spray directly over and around cockroaches at the rate of one ounce per 1.5 sq.ft. to ensure continuous exposure to treatment. For control of eggs, spray one ounce per 3~6 sq.ft.
