

-We have tested the product on a variety of surfaces without problems, but it is possible that the plant oils could damage some plastics or finishes or could stain some fabrics or porous surfaces, so test spray a small area first. If clean up is needed, use water and dish soap.  
 -Treated surfaces may be slippery when wet. Wipe away excess spray with a clean cloth or paper towel.

**Physical Hazards:** Contents under pressure. Keep away from heat, sparks and open flame. Exposure to temperatures above 130 °F may cause container to burst.

**Storage & Disposal:** Store in a cool, dry area, out of reach of children. Dispose of in trash or offer for recycling if available. Do not puncture or incinerate.

**Limitations of Liability:** Maggie's Farm Ltd makes no warranties of merchantability or fitness for any purpose except expressed on this label. Buyer assumes all responsibility for safety and use not in accordance with label directions and precautions.

Maggie's Farm Ltd represents that this product is a minimum risk pesticide and is exempt from registration under EPA FIFRA 25(b). This product is not EPA registered.

**Total.....100.00%**  
 \*Water, Isopropyl alcohol, White mineral oil, Wintergreen oil, Butyl lactate, Polyglyceryl oleate, Nitrogen

\*When used as directed

Keep Out Of Reach Of Children  
**CAUTION**  
 Net Wt: 14 oz (397 g)

Maggie's Farm Mosquito Fogger kills and repels mosquitoes and flies. Using natural plant oils as the active ingredients in a water-based formula, it leaves no harmful residues. Bugs are tough, but solutions should be simple and effective. Maggie's Farm is committed to offering products that are Simply Effective. It's as simple as that!

**DIRECTIONS FOR USE**  
**Always read label directions and precautions prior to use.**  
**Shake well before use and periodically during use.**

**Fogger Treatment:** To kill and repel mosquitoes and flies, hold container upright and aim nozzle away from face and other people. Press the button firmly and spray in a slow sweeping motion toward the area to be treated. For best results, spray when the air is calm and contact as many insects as possible. If a breeze is blowing, spray in the same direction as the wind. Repeat as necessary.

**Repellent Zone Treatment:** To create a mosquito repellent zone, spray surfaces and vegetation in areas where mosquitoes congregate from about 3 feet away including: plant leaves and dense foliage, under and around decks, porches, patios, outdoor screens, tents and other surfaces pests may contact. Give special attention to any dark, humid areas, as mosquitoes prefer to rest in these areas. Allow a few minutes for the product to take effect. Reapplication will be needed after rainfall. Repeat as necessary.

**Precautions**

- We recommend good safety practices when using any insecticide, such as avoiding contact with eyes and skin and avoiding directly breathing spray mist. If product gets in eyes, flush with water for at least 15 minutes. If on skin, wash with soap and water. For any persistent irritation, or if more than an incidental amount is swallowed, seek medical attention. If seeking medical treatment, have this label with you.
- Do not apply to food, feed, plants grown for food, or plants that are sensitive to oils.
- Keep out of lakes, streams and ponds.
- To prevent electrical shock, do not apply the product into electrical outlets or electrical boxes, or on any bare wires.
