

Victor® Mouse & Rat Repellent is a naturally derived and effective outdoor rodent repellent. To prevent rodents from entering your home, garage, cabin, trailer, barn, stable, woodpile, trashcan and other areas around your home, apply Mouse & Rat Repellent as a safe and trusted preventative measure. Mouse & Rat Repellent contains a specially formulated blend of essential oils that allow users to create a perimeter boundary around a dwelling to deter rodent entry. The product can be used effectively around pets and family when used as directed.

APPLICATION DIRECTIONS:

For optimal results, first seal all structural foundation holes and any other areas where rodents may be able to enter the dwelling. Next, remove all potential sources of food such as pet food, birdseed, and table scraps. Shake the container before use. To apply, pump handle to pressurize container and depress trigger until material starts to dispense. Adjust nozzle to stream setting and treat the perimeter of the area to be protected, wetting both a vertical and horizontal surface each of roughly 8". Bottle treats up to 100 ft. For increased protection apply at rate of 50 ft per bottle. Reapply as scent becomes faint, or if the effects of the previous treatment appear to wane. Reapply after heavy rain.

FIRST AID: IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

STORAGE AND DISPOSAL:

Store and transport in an upright position. Store in original container in a cool, dry, and well-ventilated location inaccessible to children and pets. Protect from heat and freezing. Store between 40° F and 90° F. Do not reuse empty container. Discard empty container in trash.

USE PRECAUTIONS

Before large-scale treatments, test product on a small, inconspicuous area. Do not use on light colored upholstery. Use with caution around plants. If product freezes, simply return to room temperature and follow label directions. Do not directly spray electrical wires or sockets. Not for use on car engine.

This product has not been registered by the United States EPA. Woodstream Corporation represents that this product qualifies for exemption from registration under the FIFRA.
