FIRST AID

IF IN EYES
- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after first 5 minutes, then continue rinsing eyes.
- Call a poison control center or doctor for treatment advice.

EMERGENCY MEDICAL INFORMATION

Have the product container or label with you when calling a poison control center or doctor; or going for treatment. You may contact CHEMTREC at 1-800-424-9300 for transport or emergency medical treatment information. This product is identified as Eliminator Weed & Grass Killer II Super Concentrate, EPA Reg. No. 42750-329-59144

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. To prevent tracking product to unintended areas such as your yard, keep people and pets out of treated area until spray has dried. People and pets may enter treated area after spray has dried.

ENVIRONMENTAL HAZARDS

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted or the next 24 hours will help ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment of the treated area will help avoid run off to water bodies or drainage systems.

PHYSICAL AND CHEMICAL HAZARDS

Do not mix or allow to contact oxidizing agents. Hazards chemical reaction may occur.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store product in original container in a safe place away from direct sunlight.
PESTICIDE DISPOSAL: Nonrefillable container. Do not reuse or refill this container.
If Empty: Do not reuse this container. Place in trash or offer for recycling if available.
If Partly Filled: Call your local solid waste agency or 1-800-CLEANUP (or other appropriate toll free number) for disposal instructions. Never place unused product down any indoor or outdoor drain.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
This is an end-use product. Gro Tec Inc. does not intend and has not registered it for reformulation or repackaging.

HOW IT WORKS

This product is absorbed by the weed's leaves. It moves through the weed to the root, stopping the production of an essential enzyme found in plants (but not in humans or animals). Weeds die, roots and all- so weeds don't grow back. Kills only what you spray. Any product not absorbed by the plant breaks down into natural materials without moving in or on the soil to untreated plants. Weeds usually yellow and wilt within 2 to 4 days with complete kill in 1 to 2 weeks.

WHERE TO USE

On patios, walkways, driveways, gravel or mulch beds, Around fruits, vegetables, flowers, shrubs or trees, Along fences, In large areas, For lawn replacement, For garden plot preparation

AMOUNT TO USE

For best results
- 2 ½ fl. oz. per gallon of water for established or tough to control weeds.
- For easy to kill weeds such as seedlings, add 1 ½ fl. oz. per gallon of water

MIXING INSTRUCTIONS

Tank Sprayer: Use of a quality brand tank sprayer is recommended. A plastic, aluminum, fiberglass, plastic-lined steel or stainless steel sprayer may also be used.
For easy to kill weeds such as seedlings, add 1 ½ fl. oz. to 1 gallon of water
For tough established weeds, for best results, add 2 ½ fl. oz. to 1 gallon of water
Spot treat or spray evenly over 300 square feet

HOW TO APPLY

- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds around desirable plants, shield plants from drift with a sheet of cardboard or plastic. If desirable plants are accidentally sprayed, rinse off immediately with water.

IMPORTANT: Do not spray plants or grasses you like - they will die. Not recommended for spot weed control in lawns since this product kills lawn grasses.

WHEN TO APPLY

- Apply when weeds are actively growing.
- For best results, apply during warm, sunny weather above 60° F.
- Apply when air is calm to prevent drift to desirable plants.
- RAINPROOF Protection: Rain or watering 30 minutes after application will NOT wash away effectiveness.
- If used to control weeds around fruit or nut trees, caneberries or grapevines, allow 17 days before harvesting.

WHEN TO REPLANT

- All ornamental flowers, trees and shrubs may be planted 1 day after application.
- Lawn grasses, herbs, vegetables, and fruits may be planted 3 days after application.

HOW TO CLEAN SPRAYER: To clean sprayer after use, rinse sprayer and all sprayer parts with water 3 times. Spray rinse water on bare soil or gravel. After cleaning, sprayer may be used for other products.

ADDITIONAL TIPS
To Kill Vines

- If vines are growing up poles, fences, or tree trunks with mature bark, cut vines to a height of 3 to 4 feet and spray vines thoroughly.
- If vines are climbing shrubs or tree trunks with green bark, cut vines at base and treat as directed for stumps or spray regrowth. If spraying regrowth, shield shrubs and tree trunks from spray drift with a sheet of cardboard or plastic.

To Kill Bamboo

- Cut canes close to the ground.
- Make cut just below a stem joint to create a hollow stem reservoir.
- Pour 1 Tbs. of undiluted product into the hollow stem reservoir.
- Browning of the canes will occur in 7-14 days.
- Spray foliage if regrowth occurs.

To Kill Stumps

- Cut living stump close to ground.
- Drill 4 to 5 holes into freshly cut stump.
- Immediately pour undiluted product into holes.

IMPORTANT: Some trees may share the same root system. Adjacent trees having a similar age, height and spacing may signal a shared roots system. Injury may occur to non-treated trees when one or more trees sharing common roots are treated.

For Lawn Replacement:

Use this product to kill a lawn and its weeds before planting a new lawn.

- Skip one mowing before spraying.
- Use 2 ½ fl. oz. per gallon of water for each 300 square feet.
- If soil is dry, water before application and 2 to 3 days after application.
- If green patches remain after 7 days, reapply.
- Wait at least 3 days after last application to rake, till or replant with seed or sod.

Kudzu

- For best results, apply in mid to late summer when vines are mature and actively growing.

Wild Blackberry

- Spray anytime plants are actively growing. Dead canes should be cut down and removed. Reapplication is often required to kill deep roots.

Poison Ivy & Poison Oak

- Contact with these plants anytime of the year can cause an allergic reaction. Spray anytime plants are actively growing, but at least 4 weeks before the first killing frost in the fall.
- Reapply, if new growth appears. Handle dead plants with rubber gloves. Dispose of plants and rubber gloves in tightly sealed garbage bags.

For Flowerbed & Garden Preparation

- Use this product to kill weeds, grasses and brush before planting flowers, fruits, vegetables or herbs.
- If soil is dry, water before application and 2 to 3 days after application.
- Use 2.5 fl oz per gallon of water for each 300 sq ft. Apply evenly over treatment area.
- Wait 1-3 days before planting garden. See When to Replant section for details.
