**For Use on Dogs & Cats Over 12 Weeks Old:** Shake well. Apply indoors or outdoors in a well ventilated area. Lightly spray pet's entire coat until damp, but not dripping. Do not spray in the face, eyes, nose, mouth or genitals. Cover the entire coat including the legs, tail and stomach. Massage into the coat until the product reaches the skin. Repeat as necessary.

In order to help reduce the occurrence of fleas and ticks, this product is best used year round.

**For Pet Bedding, Pillows, Blankets, Carpet & Rugs or Outdoor Surfaces Including Patio Furniture & Yard:** This product is designed to be non-staining; however, always apply a small amount to an inconspicuous area to test for colorfastness. Shake well. Spray the surface uniformly with a light mist until moist. Avoid soaking. A fine mist is all that is necessary to be effective. For added protection against fleas and ticks in your home, try Natural Care Flea & Tick Carpet Powder.
