INSTRUCTIONS
 1. Mow lawn to normal height 1 to 2 days before application.
 2. Water lawn thoroughly in the evening before application to ensure that lawn or lawn does not have or wash away.
 3. Apply when weeds are actively growing, preferably in the morning when the dew is on the grass. If grass is not moist at time of application, sprinkle lightly with water to hold the material and prevent dust drift onto non-target plants.
 4. Do not wash this product on or near desirable plants, and avoid spreading granules onto exposed root systems or adventitious anthers (anthers) within the drip line of desirable trees and shrubs, since injury may result.
 5. Do not use this product where desirable clovers are present; Apply when the air is calm; Do not apply to newly seeded lawns. During application, close spreader openings when turning.
 6. Do not use this product on or near water bodies, streams, rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when wind speed is greater than 10 mph. Do not apply to areas where rain is expected that day.
 7. Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when rain or snow is falling or when rain is expected that day.
 8. Do not apply to areas where rain is expected that day.
 9. Do not apply to areas where rain is expected that day.
 10. Do not apply to areas where rain is expected that day.

GENERAL PRECAUTIONS AND RESTRICTIONS
 Do not use this product on or near water bodies, streams, rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. Do not apply when wind speed is greater than 10 mph. Do not apply to areas where rain is expected that day.
 Do not use this product where desirable clovers are present; Apply when the air is calm; Do not apply to newly seeded lawns. During application, close spreader openings when turning.
